

BUYER'S GUIDE 2026

We are excited to present the 2026 BA Pumps & Sprayers Buyer's Guide, designed to make selecting your next sprayer, spreader, and spraying accessories as seamless as possible.

BA Pumps & Sprayers, formerly known as Bertolini Australasia, is a proud New Zealand family-owned and operated business. For over 35 years, we've been at the forefront of developing New Zealand's favourite sprayers, delivering products that meet the demands of kiwi farmers, growers, and contractors.

As dedicated members of the Buy NZ Made initiative, we remain committed to offering a wide range of locally manufactured products. Our expertise lies in delivering

the latest innovations in spraying and pressure-cleaning technology, alongside a comprehensive range of parts and accessories. Through our strong partnerships with leading global suppliers like Idromeccanica Bertolini for advanced pump technology and TeeJet for cutting-edge spray application, we ensure access to the best tools in the industry.

All our products are backed by an extensive dealer network across New Zealand, ensuring support wherever you are.

To our loyal customers, both past and present, thank you for choosing BA Pumps & Sprayers. We look forward to continuing to exceed your expectations with our products and service.

Yours sincerely,

Mark, Penny and Guy Rendle

LK SERIES LINKAGE SPRAYERS

LK SERIES LINKAGE SPRAYERS

LK Series of sprayers are available in 1600 and 1900 litre and feature integral flush and hand wash tanks, Bertolini 170 or 210 l.p.m. POLY pump, onboard chemical induction hopper and optional TeeJet, Hexagon Ag or ISOBUS controls.

STANDARD FEATURES:

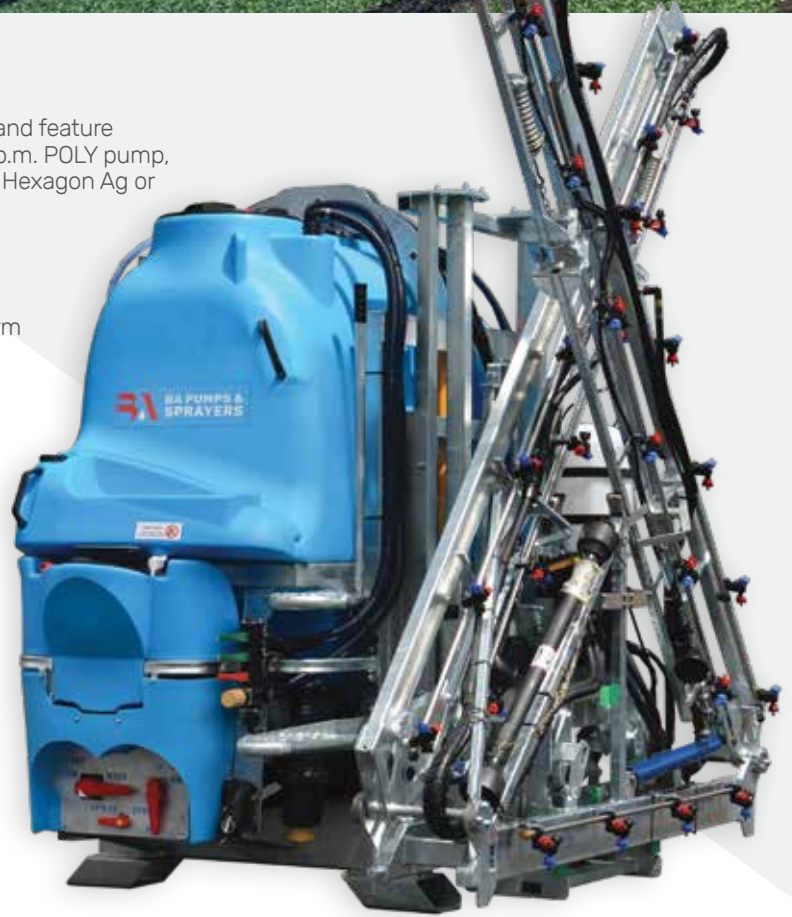

- ✓ Bertolini 170 l.p.m. or 210 l.p.m. POLY pump
- ✓ Heavy duty galvanised frame with access step/platform
- ✓ 1600 or 1900 litre tank
- ✓ 10 litre hand wash tank
- ✓ 150 litre flush tank
- ✓ In-Cab 5 section controller
- ✓ Chemical Induction Hopper

X-2 BOOM 12 TO 16 METRE

STANDARD FEATURES:

- ✓ Heavy duty hot dipped galvanised construction
- ✓ Compact cross fold design
- ✓ Spring loaded, self-returning breakaways
- ✓ Self-levelling
- ✓ TeeJet Nozzle bodies
- ✓ TeeJet AIXR air induced nozzles
- ✓ Booms now include additional bracing.

LM SERIES LINKAGE SPRAYERS

LM 1150 LINKAGE SPRAYER AND M BOOM

The BA Pumps & Sprayers LM Linkage Sprayer is a shift towards a more efficient, safer, and productive spraying solution for farmers. This innovative product allows you to cover more ground with complete control from the tractor seat.

FEATURES

- 1150 Litre UV rated Polyethylene T-shaped tank
- Heavy duty hot dipped galvanised CAT1/2 frame
- Bertolini 75-Litre POLY Pump PTO Drive Diaphragm Pump
- Built-in 10L hand-wash tank and 60L flush tank
- Built-in induction hopper
- 12 Metre fully hydraulic M Boom
- Wing lift allows you to move the boom with the contour of the terrain
- Built-in breakaways ensure you can safely clear obstacles
- A smooth outer boom shape minimising fence hookups.

*LM Series pictured with optional 50M stainless steel hose reel

STANDOUT FEATURES

- Design Registered 3 in 1, 1150 Litre tank design: Integrates the chemical induction and flush tank into one mould giving excellent weight distribution allowing the farmer to carry more volume without compromising tractor stability.
- The LM's integrated chemical induction hopper is fitted as standard for safe and easy chemical loading.
- 3-Section In-Cab Electric Control: Enables pressure adjustment and section control on the move.
- Clearly labelled sprayer functions make the LM Series safe and simple to use.

OUT MORE**

M BOOM AND FACTORY FITTED OPTIONS

THE M BOOM ALLOWS YOU TO ADAPT TO ANY TERRAIN

The 12 Metre M Boom (patent pending) has been designed for superior operation and features independent full wing lift and fold using only 2 hydraulic tractor remotes. The exclusive hydraulic fold design gives the M Boom up to 30 degree wing tilt allowing it to adapt to any terrain.

M BOOM OPENING STAGES

OPTIONAL UPGRADES

- Skid plates for the rough jobs: Increased protection of the boom on tough terrain.
- Rounded boom ends: Minimises fence hook-ups and full nozzle protection.
- Spring loaded breakaways prevent boom damage if struck.
- Low drift TeeJet AIXR Nozzles fitted as standard.
- The Ezi-Tilt wing lift function is ideal for spraying undulating and contouring country.
- Long life and durable: Heavy duty, fully hot dip galvanised for maximum durability and corrosion resistance.

HOSE REEL

Add a 50 metre stainless steel hose reel and Spot 300 spray gun.

AUTO RATE CONTROLLER

The Jackal 3 section spray controller offers great flexibility and simple operation.

Norman Young, Carrot Grower, Ohakune

NO TWO FARMS ARE THE SAME – NEITHER ARE OUR SPRAYERS BUILT TO FIT YOUR FARM

Every farm has its challenges – from rolling paddocks to rough terrain and large blocks. That's why BA Pumps & Sprayers offers a wide range of tank, boom, and control options – so you can configure a sprayer to suit the way you farm. Whether you're after more capacity, easier controls, or smarter technology, we'll help you find a setup that works for your operation – now and into the future.

- Built tough in NZ for real farm conditions
- Tank, boom, and control options tailored to your needs
- Backed by a nationwide service and dealer network.

FEEDBACK FROM THE FIELD

After 20 years with a self-propelled unit, Ohakune grower Norman Young upgraded to a BA 1300L LS Linkage Sprayer with a 1500L Front Mount Tank and 15m X2 Boom – a setup tailored to suit his large-scale carrot operation, spread across a 20km radius. He needed more capacity, easier transport between blocks, and a sprayer that was straightforward to use. Working with the BA team, the sprayer was configured to meet the specific needs of the farm.

I've been spraying all my life, so I knew what I was after. The new BA setup has been a big step up. It's easy to use; the boom isn't too complicated, and the console is excellent. I can shift it around easily, which is important with our blocks spread over 20kms. It's also good knowing I've got backup when I need it - that was a big factor in choosing BA for my sprayer *Norman Young, Carrot Grower, Ohakune*

EZI-SPOT ATV 12-VOLT SPRAYERS

**BA PRO-SPREAD TRAILED
CAUSMAG SPREADER**

The BAF70 and BAF140 Causmag Spreader is primarily designed for the application of Causmag. The innovative hopper and aperture design enables the successful spreading of other products such as urea and grass seed, with its compact design and low spinner height.

STANDARD FEATURES:

- ✓ Galvanised frame and spinner disc for long life
- ✓ Polyethylene hopper and lid
- ✓ Spreader deflector shield to eliminate product buildup
- ✓ Grease filled gearbox
- ✓ Capacity BAF70: 40kg bag of urea or two 25kg bags of Causmag
- ✓ Capacity BAF140: Two 40kg bags of urea or four 25kg bags of Causmag

**BA PRO-SPREAD TRAILED
FERTILISER SPREADER**

The BAF225 and BAF425 Fertiliser Spreader is primarily designed for the application of Fertiliser. Its compact design and low spinner height offer excellent product distribution due to the dual outlet hopper discharge and curved spinner fins, making this spreader perfect for all farmers and lifestyle block owners.

STANDARD FEATURES:

- ✓ Galvanised frame for maximum corrosion resistance
- ✓ Stainless steel spinner disc with adjustable fins
- ✓ Polyethylene hopper and lid and spreader deflector shield Clutch
- ✓ with single lever spreader aperture opening and clutch drive engagement
- ✓ Grease filled gearbox
- ✓ Capacity BAF225-C: Four 40kg bags of urea
- ✓ Capacity BAF425-C: Eight 40kg bags of urea

BA VS3000

3000 LITRE, 3-ROW VINE SPRAYER

ENGINEERED FOR PERFORMANCE
BUILT FOR RELIABILITY

ABOUT THE VS3000

The BA VS3000 is a New Zealand made, three-row vine sprayer engineered for higher productivity and precise coverage. Its 3000L capacity, updated fan assembly, and FEA-verified chassis deliver reliable performance in demanding New Zealand conditions.

Engineered for real-world vineyard demands, the VS3000 offers quick adjustments, intuitive controls and stable operation through tight headlands, varied row widths, and long spray days. Purpose-built and field-tested, it sets a new benchmark for multi-row spraying – more accuracy, more reliability, and the durability growers expect.

BA MIXING TANK

The BA Chemical Mixing Tank simplifies chemical handling by making mixing safer, faster, and more consistent. Designed for both liquids and powders, including tough products like sulphur, it guarantees a thorough blend every time.

FEATURES:

- Ground-Level Operation – No heavy lifting of bags or drums; safer and more convenient.
- Powerful Mixing – Handles both liquid and powder-based chemicals, ensuring a complete, high-quality mix.
- High-Efficiency Pump – Single-phase centrifugal pump moves up to 200L/min directly into your spray tank.
- Generous Capacity – Mix up to 65L with ease.
- Simple Controls – Dedicated taps for water fill, mixing, transfer to spray tank, and wash-down for quick cleaning.

PARTS &
ACCESSORIES

MANUAL FOLD ECONO SERIES SPRAY BOOMS

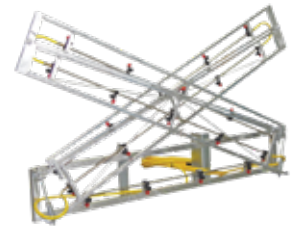

BA offers a full range of manual fold spray booms from three to twelve metres which have been developed over many years with farmer and contractor input. These fully galvanised steel frame booms feature spring loaded break-aways, stainless steel spray lines, TeeJet non-drip nozzle bodies with quickfit self-aligning capnuts and TeeJet precision AIXR low drift nozzles as standard.

3M & 4.5M ECONO BOOM

6M ECONO WITH NOZZLE PROTECTION

10 & 12 METRE ECONO BOOM

PROLINE SPRAY BOOMS

The Proline boom has all the features of the Econo series and incorporates fully shielded nozzle bodies. Available in six and eight metre.

6 & 8 METRE PROLINE BOOM

BOOM LIFT MAST W/ INTEGRATED SUSPENSION

BA's new boomlift mast runs smoothly on urethane rollers allowing for "boom yaw", while the integrated suspension ensures a smooth ride.

BOOM LIFT MAST WITH INTEGRATED SUSPENSION

BOOM LIFT MAST

BA have designed a robust hydraulic lift to suit booms up to 16 metres. Supplied with hydraulic ram, hose and coupler.

BOOM LIFT MAST

THE M BOOM ALLOWS YOU TO ADAPT TO ANY TERRAIN

The 12 Metre M Boom has been designed for superior operation and features independent full wing lift and fold using only 2 hydraulic tractor remotes. The exclusive hydraulic fold design gives the M Boom up to 30 degree wing tilt allowing it to adapt to any terrain.

PART NUMBER:	\$ EX. GST
BA1200MB	\$13,995

AIR BAG BOOM SUSPENSION

BA's dual air bag suspension is designed to be compact on all LS and LK linkage sprayers, while ensuring a smooth ride.

SPRAY BOOMS

C SERIES 8 METRE HYDRAULIC SPRAY BOOM

The new C Series Spray Booms superior independent fully hydraulic fold boom design with wing lift enables boom ends to be lifted over obstacles. The lightweight robust frame design provides full nozzle protection, outer section auto locks to eliminate boom end bounce and new self-returning break-away.

Available in 8m

K-SERIES SEMI-HYDRAULIC FOLD SPRAY BOOMS

The K-Series semi-hydraulic spray booms are designed for the farmer, market gardener and horticulturist. These booms have all the features: quality steel construction with galvanised finish, independent hydraulic folding sections with manual outer fold sections which double as breakaways, stainless steel liquid tubes, TeeJet non-drip nozzle bodies and TeeJet AIXR nozzles.

SUPER X-2 HYDRAULIC FOLD SPRAY BOOMS

The Super X-2 fully hydraulic fold 12, 15 and 16 metre spray booms are designed for farmers and contractors. The X-2 boom features a new centre section offering more strength and self-levelling geometry for smoother operation in the field, improved inner section pivots utilising bearings for longevity and new outer section auto reloading breakaways that breakaway forward and aft. The X-2 has full nozzle protection as part of the design and has a formidable lineup of optional accessories: full wing lift, airbag boom suspension, vertical hydraulic lift and tri-jet nozzle bodies.

Now Available in 16m

BA MONO-GLIDE SPRAY BOOM

The Mono-Glide Spray Boom has been designed to be strong, yet very light. This boom features a galvanised steel centre section with aluminium tube arms, full nozzle protection, TeeJet AIXR nozzles, independent hydraulic fold and wing lift are standard. Supplied with hydraulic hoses and quick release couplings.

Available in 12m & 15m

MEDIUM PRESSURE DIAPHRAGM PUMPS - PA SERIES

Bertolini PA330, PA430 and PA530 Series pumps feature the latest three cylinder pump technology. Constructed from anodised aluminium with 316SS valves and Desmopan pre-deformed diaphragms for maximum life. Suitable for high pressure gun spraying and small booms.

PA430

PUMP KIT CODES:

- 0 Bare pump with inlet and outlet fittings. No coupling.
- 1 Pump complete with six spline 1 - 3/8". Male coupling and mounting feet.
- 2 Pump complete with six spline 1 - 3/8". Female coupling and mounting feet.
- 3 Pump kit complete with six spline 1 - 3/8". Male coupling, mounting feet, 2.5metres of suction, pressure, bypass hose, two tap remote mount control and suction strainer.
- 4 Pump kit complete with six spline 1 - 3/8". Female coupling, mounting feet, 2.5 metres of suction, pressure, bypass hose, two tap remote mount control and suction strainer.

LOW PRESSURE DIAPHRAGM PUMPS- POLY SERIES

Bertolini POLY Pumps are specially suited for weed control and liquid fertiliser treatment. All wetted parts are constructed from polypropylene and AISI316 stainless steel (Bertolini Patent), to withstand the most aggressive chemicals, fertilisers and acids. All moving parts are completely submerged in oil ensuring long life and high reliability. Suited for trailed and mounted sprayers.

PUMP KIT CODES:

- RT4** Pump complete with built-in reduction gearbox for petrol engine.
- VF** Pump complete with flange for mounting of keyed shaft or six spline coupling.
- VD** Pump complete with six spline 13/8 Male through shaft and mounting feet.
- VA** Pump complete with 1 keyed shaft and mounting feet.
- 1(VS)** Pump complete with six spline 13/8 Male shaft and mounting feet.
- 2** Pump complete with six spline 13/8 Female coupling.

SHURFLO 8000 SERIES 12 & 24 VOLT PUMPS

The 8000 Series diaphragm pump is SHURflo's most widely used agriculture pump. Viton valve material and santoprene diaphragms assures maximum chemical resistance. SHURflo's 6.8 LPM smooth flow internal bypass/pressure switch model give a constant smooth delivery even when using small nozzle sizes. Ideal replacement pump for all 12 volt sprayers.

**HEXAGON AGRICULTURAL GPS
Ti5 AND Ti7 GPS GUIDANCE SYSTEMS**

Work faster and easier with Hexagon Agriculture Ti Series GPS Guidance. The Ti Series has been designed to be easily expanded from the base guidance system to full implement control and monitoring, making them the perfect unit for any farmers looking to improve the application efficiency no matter their budget.

HEXAGON Ti5

Ti5 FEATURES:

- ✓ 5-inch Colour Touch Screen
- ✓ Rugged aluminium case
- ✓ Multiple Guidance Modes
- ✓ 2D or 3D Operational Modes
- ✓ GPS and GLONASS Compatible
- ✓ Import or export maps via USB

HEXAGON Ti7

Ti7 FEATURES:

- ✓ 7-inch Colour Touch Screen
- ✓ Rugged aluminium case
- ✓ Multiple Guidance Modes
- ✓ 2D or 3D Operational Modes
- ✓ GPS & GLONASS Compatible
- ✓ Import/export maps via USB
- ✓ Correction Signals available on 20Hz model

A-B LINE

PARALLEL A-B CURVE

ADAPTIVE CURVE

PIVOT

HEXAGON AGRICULTURAL UPGRADES:

AUTO BOOM & SECTION CONTROL

STANDARD FEATURES:

- ✓ Hexagon Agriculture's Spray Controller delivers the best efficiency of application, reducing the overlap of applying and controlling the flow during application speed variations
- ✓ Combined Auto Rate Control with Auto Boom Section Control
- ✓ Compatible Ti5 and Ti7 Console
- ✓ All functions controlled from the Ti Series consoles
- ✓ Automatically shuts off the nozzles over previously sprayed areas and turns on over unapplied areas
- ✓ Compatible with both 2 wire and 3 wire motorised valves

HEX DRIVE

STANDARD FEATURES:

- ✓ HexDrive Electric Steer Kit compatible with both Ti5 and Ti7 GPS Consoles
- ✓ Hydraulic Pilot Auto Steer compatible with Ti7 20Hz model only
- ✓ Enhanced terrain compensation
- ✓ Works in curves, straight lines and round paths with greater accuracy, fast line acquisition
- ✓ Compatible with multiple tractor models
- ✓ Removes human error and reduces input cost due to application accuracy

845 CORE KITS & ACCESSORIES

The TeeJet 845 Sprayer Control is designed with simplicity in mind, computer controlled spraying has never been so easy. Simply set your target application rate and the unique VisFlo display on the 845 helps select the right TeeJet tip for the application. Once spraying begins the large display shows application rate, volume sprayed, system pressure, sprayer speed and area covered.

STANDARD FEATURES:

- ✓ Flow or pressure based regulation options provide reliability and flexibility
- ✓ Five boom section switches plus master shutoff
- ✓ Durable, weather-resistant aluminium housing
- ✓ Single cable connection for quick hookup
- ✓ Full-featured sprayer control with industry-leading ease of use
- ✓ Large backlit display shows all spraying information at a glance
- ✓ Colour-coded tip selection for easy programming
- ✓ Communication port for PC and GPS interfacing

TEEJET 845 & RADION SPRAYER CONTROL KITS

Kit for retrofit to your sprayer. Kit includes: 845 or RADION console and power cable, regulating valve, relief valve, dump valve, flowmeter, speed sensor and three, five, seven or nine section motorised valves.

Kit excludes standard 845 5 section wiring loom (#45-22065).

TEEJET RADION CONTROLLERS

Designed with simplicity in mind Radion offers spraying advantages not found in other controllers. Radions large display shows application rate, volume sprayed, system pressure, sprayer speed and area covered. Radions built-in planning tool automatically displays the available speed range for the target rate and spray tip that has been selected. This unique R Visual planning tool makes choosing the correct spray nozzle for an application a quick and simple task.

STANDARD FEATURES:

- ✓ Easy to view 4.3 colour touch screen
- ✓ Tank level monitoring and automatic filling function
- ✓ Built-in Droplet Size Monitor
- ✓ Uses TeeJet 800 Series cables for quick hookup
- ✓ Available with 7 or 9 boom section switches & master shutoff
- ✓ Communication port for connection to external variable rate controls
- ✓ Designed for direct connection to TeeJet Matrix consoles for auto-section control without extra devices

50515-22DP	Replacement motor for 460 EC valve	\$665.00

TEEJET 430 BALL VALVE SERIES

TeeJet's platform of compact, durable valves provide superior performance!

STANDARD FEATURES:

- ✓ 430 2-Way Ball Valves provide simple, dependable on/off control
- ✓ Stainless steel ball and stem
- ✓ Automatic boom section control compatible
- ✓ Simple 1/4 turn actuation means less mechanical movement and wear and tear
- ✓ Install more valves in existing spaces and increase control capability, accommodates up to 15 boom sections
- ✓ All valve banks are supplied with 1 BSP female threaded inlet, blanked one end, 1/2 barbed outlet tails, DIN plugs
- ✓ 15 bar rated

TEEJET 430 BALL VALVE

TEEJET CONTROLLER MANIFOLDS

New compact designed manifold for TeeJet controllers. Features pressure relief, 12 volt pressure regulator and 80 mesh strainer. Optional 801A Flow Meter and dump valve.

TEEJET CONTROLLER MANIFOLD

TEEJET 460 BALL VALVE MANIFOLD

The heavy duty 460 Series Ball Valve Manifold utilises a compact design that provides reliable performance at a wide range of operating pressures up to 20 bar. All valve banks are supplied with 1 BSP female threaded inlet, blanked one end, 1/2 barbed outlet tails, DIN plugs and sight glass indicators.

TEEJET THROTTLING VALVES

For regulating flow in systems equipped with centrifugal pumps where sensitive regulation is required or to control flow in jet agitator return lines. Locknut holds pressure setting firmly in place.

THROTTLING VALVE

PISTON-TYPE PRESSURE RELIEF/REGULATING VALVES

Bypasses excess liquid. Adjustable to maintain control of line pressure within the valve's operating range. Selected pressure setting firmly held in place by locknut. Extra large valve passages to handle large flows.

CALIBRATION FORMULA & CONVERSIONS

FLOW RATE:

$$\frac{\text{L/HA} \times \text{KM/H} \times \text{W (m)}}{600}$$

= L/MIN

APPLICATION RATE:

$$\frac{\text{L/MIN} \times 600}{\text{KM/H} \times \text{W (m)}}$$

= L/HA

L/MIN (PER NOZZLE)

$$\frac{\text{L/HA} \times \text{KM/H} \times \text{W}}{60,000}$$

(W = Nozzle spacing in cm
for broadcast spraying)

TRAVEL SPEED:

$$\frac{\text{Distance (m)} \times 3.6}{\text{Time (sec)}}$$

= Travel Speed (KM/H)

CONVERSION:

100 KPA = 1 BAR = 14.5 PSI

AREA:

10,000m² = 1 HA
1 HA = 2.47 AC
1 AC = 0.40 HA

AIXR TEEJET® AIR INDUCTION XR FLAT SPRAY TIPS

MOST VERSATILE AIR INDUCTION TIP

The AIXR TeeJet Flat Spray Tip offers excellent drift resistance without compromising spray coverage. AIXR spray tips are suitable for a wide variety of systemic herbicides and applications where drift control is critical.

FEATURES & BENEFITS

- The unique UHMWPE material provides significantly longer wear life and better acid resistance, making the AIXR ideal for highly acidic applications, such as applying defoliation products
- Air-induction design enhances coverage of larger droplets through air inclusion
- A perfect balance of drift control and coverage – precisely sized, large, air-filled drops stay on target and cover the entire plant

	USE WITH:		MATERIALS:
	HERBICIDES		VISIFLO ACETAL
	SYSTEMIC FUNGICIDES		SPRAY ANGLE:
	SYSTEMIC INSECTICIDES		110°
	PRESSURE:		SPRAY PATTERN:
	1.5-6 BAR		SINGLE
			LERAP RATING
			★★★

PRICES

All prices shown are suggested retail excluding GST. Prices and specifications may change without notice.

FREIGHT

Spare Parts

All spare parts will incur a freight charge, unless the aggregate order value is above our freight-free limit.

Finished Goods

Standard stocked finished good items with a dealer net value over \$3,000 (freight free limit) will be supplied freight free to signed up BA stocking dealers. Please note that a freight surcharge applies to all stocking dealer orders exceeding this limit, reflecting increased global freight costs currently being experienced across the industry. These charges are reviewed regularly and are subject to change in response to ongoing fuel price fluctuations and carrier rate movements.

Non-stocking dealers will incur freight charges on all finished goods shipped. To be considered a stocking dealer, dealers are required to carry the range of finished goods as outlined in their signed dealer agreement.

Reseller freight arrangements are agreed between BA and those resellers for SKU'd lines.

Make to order finished goods all incur freight charges. Make to order products include LS and LK linkage sprayers, front mount tanks, BAT and CS series trailer sprayers, grape sprayers, orchard sprayers, and over row weed sprayers. Standard freight charges for these products are shown below. These are maximum charges and are subject to change; alternative arrangements may be agreed between BA and the purchaser, particularly where the destination is near the factory.

PAYMENT TERMS

Payment is due on the 20th day of the month following the date of our invoice. Keeping within these trading terms will ensure that full discounts are retained.

All payments are to be sent to the BA Office. Cheques are accepted subject to collection and with full rights of recourse. Interest on an overdue account may be charged at 2.5% per month. On default of payment, the purchaser shall be liable for all costs of recovering the debt.

CREDIT

Goods for credit will not be accepted unless they are returned within 14 days. Procured and indent goods are non-returnable.

Goods for credit must be sent with a credit request stating our invoice number. The credit value of the returns will be credited less freight, this includes items sent freight-free unless the goods are defective or supplied by us in error. An extra charge will be made for goods received in a less than saleable condition. Some products are subject to a restocking fee.

Prior approval must be obtained for all returned goods and they must be returned with a RMA Reference Number. Please call our Customer Services team regarding returns on 0800 833 538.

RESTOCKING FEE

A restocking fee of 10% will apply to all returned goods. Returns must be pre-approved and in original, saleable condition.

WARRANTY

BA warrants to the original purchaser for a period of Contractors 6 months, Farmers 12 months, and Spreaders 24 months, that any BA product bearing one of our serial numbers will be free from any defects in material, parts, or workmanship. BA undertakes to repair or replace, for the original purchaser, any part or parts that are deemed by BA to be faulty within the specified warranty period, providing that the equipment has been used for normal purposes only and in accordance with the instructions.

BA does not cover under warranty the following: fair wear and tear, misuse, neglect, abuse, unauthorised modifications or repairs, tampering by unauthorised dealers, freight, travelling time, mileage or telephone calls. For a full list of exclusions, refer to the BA Warranty Policy 2024.

Warranty work may only be carried out by an authorised BA dealer under the express permission of BA. We recommend that if a dealer thinks that a warranty problem has arisen, they tell their customer that a warranty claim will be submitted and not promise a warranty, as the final decision will be made by BA. All warranty claims are to be submitted on the correct BA Warranty Form and accompanied with the faulty part.

MAXIMUM LIABILITY

The maximum liability which is accepted by BA is limited to replacement of faulty goods only. In the manufacture of our goods, every care has been taken but as the use of the goods is outside our control, the end user assumes all responsibility for the use of the goods and neither the manufacturer nor any distributor or retailer shall be liable for any loss damage or downtime resulting from use.

Any advice or recommendation given by BA and its staff is given in good faith and based on the best information available to us but neither BA nor our staff accept liability arising from following that advice.

DISCLAIMER

Specifications and Pricing are subject to change without notice. Photos are for illustrative purposes only. Pre-delivery checks and installation costs are not included. All prices are excluding GST.

RETENTION OF TITLE AND PROPERTY CLAUSE

Clause 1. BA shall retain the title in the supplied goods and property until payment is received in full.

Clause 2. In the event of non-payment for whatever reason, the supplier and/or its agents will be permitted to enter without any hindrance the premises to repossess the supplied goods.

Clause 3. Proceeds of any sale of the supplied goods to a third party (customer/clients) shall be the property of the supplier and such funds shall be kept in a trust in a separate bank account as the beneficial owner and such funds shall be used towards full payment of the supplied goods in the event of non-payment for whatever reason by the customer.
